

New Horticulture Project Poised to Blossom at ChildVision

It began with a generous gift from Essential Supplies and a Foundation who wanted to remain anonymous, to grow a new student venture at ChildVision. And when completed, the horticulture project will make it possible for young people with sight loss in our Lifelong Learners programme to grow and sell their own produce.

The last few months have been around laying the groundwork and drainage, and now the fun can begin. We still need a few items – essential gardening tools and funding for the custom tables, now being built, where our students in wheelchairs can pot at. If you'd like to donate towards the tables or a gardening tool, please ring Ruth on 01 8373635.

Thank you so very much for whatever you can give to help, and thank you to our wonderful benefactors who set down the roots for budding ChildVision entrepreneurs!
